

UNAUTHORIZED SPECIAL AGENT* **(servant, slave, flunky, stooge, go-for, etc.)**

* No government benefits, No extra compensation or government assistance (for official, or their bank), and definitely No gun (for obvious reasons); however, an enormous amount of extra work, which must be done immediately upon any whim of a government official, and take priority over anything else, is provided. *Paperwork Reduction Act does not apply, and this of course will not create any significant economic impact on small banks.*
